

Karen Handshoe

“I have a small accounting business I run out of my home in Northern Noble County. I have worked with Kevin at David Culp & Co, LLP for years to do the tax returns of several of the companies I do books for. My clients are very happy with service they receive. I have their books to Kevin and in a few days the return is done. Kevin will let me know if there are changes coming that we need to beware of for the upcoming or future tax returns. My clients all appreciate his work and are always very happy with the accuracy and efficiency of getting the returns done. I also feel that although tax sometimes can be very complex, Kevin does his best to explain the laws as understandable as possible.”
